

HHDLINK ELECTRONIC LOCKS AND SEALS

A-616L

AI + GPS

An IoT logistics lock with a radar detecting presence, breathing and heartbeat, plus a video camera.

Key features

- Radar: human movement and presence detection, breathing and heartbeat detection
- Camera: live view, history playback, snapshots, local backup storage
- Alarms: real-time cut alarm
- Positioning: GPS / AGPS / LBS / Wi-Fi
- Battery: 19200 mAh
- Protection rating: IP67 (waterproof and dustproof)

DIMENSIONS
153 × 97 × 66.5 mm

BATTERY
19200 mAh

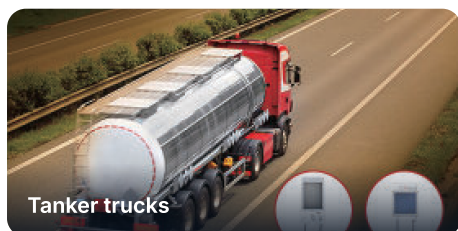

PROTECTION RATING
IP67 (waterproof and dustproof)

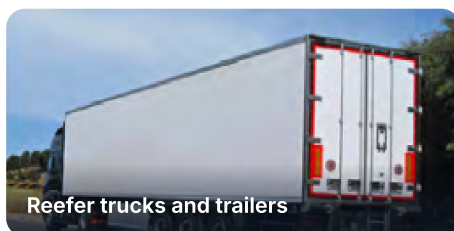

POSITIONING
GPS / AGPS / LBS / Wi-Fi

Applications

Tanker trucks

Reefer trucks and trailers

Road transport

Technical specifications

Security and operation

Radar	human movement and presence detection, breathing and heartbeat detection
Camera	live view, history playback, snapshots, local backup storage
Alarms	real-time cut alarm

Communication and location

Positioning	GPS / AGPS / LBS / Wi-Fi
