

HDDLINK ELECTRONIC LOCKS AND SEALS

G-360N

4G + GPS

A GPS seal for monitoring the transport of non-ferrous metals and other valuable cargo, with data encryption and full event traceability. ATEX certified.

Key features

- Unlocking methods: BLE / app / web / remote / SMS / NFC
- Alarms: unauthorised access alarm, low battery alarm
- Positioning: BDS / GPS
- Communication: GPS / BLE 5.0
- 4G connectivity: location tracking on the platform and real-time alarms
- Battery: 1000 mAh
- Protection rating: IP67 (waterproof and dustproof)
- Durability tests: withstands a tensile force of approx. 200 kg; vibration resistance tested

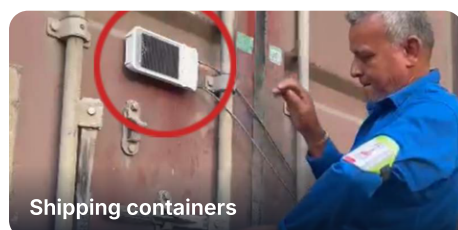

DIMENSIONS
128 × 100 × 50 mm

BATTERY
1000 mAh

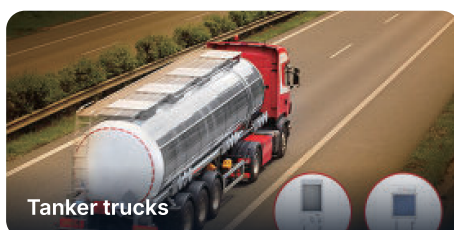

PROTECTION RATING
IP67 (waterproof and dustproof)

POSITIONING
BDS / GPS

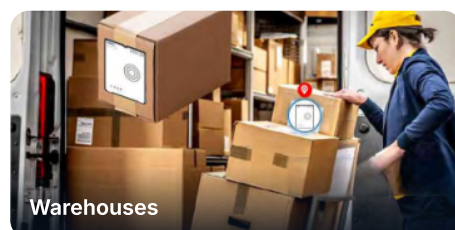

Applications

Shipping containers

Tanker trucks

Warehouses

Technical specifications

Security and operation	
Unlocking methods	BLE / app / web / remote / SMS / NFC
Alarms	unauthorised access alarm, low battery alarm
Communication and location	
Positioning	BDS / GPS
Communication	GPS / BLE 5.0
4G connectivity	location tracking on the platform and real-time alarms
Power and memory	
Battery	1000 mAh
General	
Material	shackle: 304 stainless steel
Dimensions	128 × 100 × 50 mm
Protection rating	IP67 (waterproof and dustproof)
Durability tests	withstands a tensile force of approx. 200 kg; vibration resistance tested
